# AGRICULTURAL STATISTICS

OF

## INDIA

FOR THE YEARS

1907-08 TO 1911-12

VOLUME I—BRITISH INDIA

### Prefatory Note

In 1866 a set of tables, proposed by a specially appointed Statistical Committee, was prescribed by the Government of India for general adoption as appendices to the annual reports on general administration.

In 1884, at the instance of the Secretary of State for India, some of these forms, relating to agriculture, land, and tenures were re-considered and modified after examination and discussion by a conference of officers of the Agricultural Departments. The modified tables, eight in number, were compiled for the first time for 1884-85, and published under the title of 'Returns of Agricultural Statistics of British India.' These tables were prepared and published annually until 1887-88, when a re-arrangement was made of the headings of four statements dealing with area, irrigation, crops, and agricultural stock, though no modification was made in substance.

In 1891, the tables were again revised and, to some extent, re-cast. The revised series of 1891 has, with a few unimportant alterations, been maintained to the present time, with the exception that two tables (wholesale prices and varieties of tenure) have been discontinued, other arrangements having been made to secure a record of prices.

The following schedule compares the three series of 1866, 1884, and 1891 :—

| 1866                                                        | 1884                                                    | 1891                                                                                           |
|-------------------------------------------------------------|---------------------------------------------------------|------------------------------------------------------------------------------------------------|
| IA. 1.—Area cultivated and uncultivated.                    | A.—Area cultivated and uncultivated.<br>Irrigation.     | A.—Total acreage, classification of areas (including irrigation), area under crops, and stock. |
| IIID. 1.—Crops cultivated.                                  | B.—Crops cultivated.                                    |                                                                                                |
| IIID. 2.—Agricultural stock.                                | IIID. 2.—Agricultural stock.                            | B.—Prices of produce. (Discontinued from 1894-95.)                                             |
| IIIE. 1.—Prices of produce.                                 | IIIE. 1.—Prices of produce.                             |                                                                                                |
| IE. 2.—Surveyed and assessed area.                          | C.—Surveyed and assessed area.                          | C.—Incidence of the land revenue on area and population.                                       |
| IE. 3.—Varieties of tenure held direct from Government.     | IE. 3.—Varieties of tenure held direct from Government. | D.—Varieties of tenure held direct from Government. (Discontinued from 1901-02.)               |
| IE. 4.—Varieties of tenure not held direct from Government. | (Discontinued)                                          |                                                                                                |
| IE. 5.—Register of transfers.                               | IE. 5.—Register of transfers.                           | E.—Register of transfers of landed property. (Discontinued)                                    |
| IIID. 3.—Rates of rent and produce.                         | (Discontinued)                                          |                                                                                                |

The tables of the series of 1891 as published in this volume consist of six separate tables numbered, 1 (area), 2 (classification of area), 3 (area under crops), 4 (live-stock, etc.), 5 (land revenue), and 6 (transfers of land). Each table gives the figures for each province for five years, with a total for British India, and is followed by subsidiary statements numbered 1-A, 1-B, 1-C, etc., giving similar figures for each district in each province. Besides these there is an Appendix consisting of two statements of a special nature, which deal with A—average yield per acre of principal crops, and B—changes in district, divisional, and provincial boundaries. Statement B is explanatory of the variations in the areas shown in table No. 1.

The general scope of the figures given in these tables may be explained as follows:—

The total area of India is 1,131,425,571 acres, or 1,767,852 square miles, with a population of 315 millions according to the census of 1911. This may be divided as follows:—

|                                                                                                       |                      |                           |
|-------------------------------------------------------------------------------------------------------|----------------------|---------------------------|
| (1) British Provinces (including Native States under the control of Local Governments) .              | Acres<br>748,557,916 | Population<br>268,542,790 |
| (2) Native States under the control of the Government of India . . . . .                              | 316,509,895          | 44,743,557                |
| (3) Specially administered territories in Burma ( <i>i.e.</i> , Shan States) not included under (1) . | 36,497,920           | 1,359,154                 |
| (4) British Baluchistan (including administered areas) . . . . .                                      | 29,859,840           | 414,412                   |

The area of British Baluchistan is excluded entirely from the Agricultural Statistics of India. The area of British Provinces only is dealt with in this volume—tables 1—6 and Appendix B. In Appendix A figures relating to the State of Mysore are included. Volume II deals only with Native States.

The total area of the British Provinces dealt with in this volume—748,557,916 acres, or 1,169,620 square miles—includes 129,951,978 acres, with a population of some 25 millions, belonging to Feudatory and Tributary States which are under the political control of Local Governments. These include in Burma, the Mông Mit State, the Hkamte Long State and the Upper Chindwin States; in Assam, Manipur, the Khási and Jaintiá Hill States, in Bengal, Cooch Bihar and Hill Tippera; in Bihar and Orissa the Tributary States of Orissa and Chota Nagpur; in the United Provinces, Rampur, Tehri, and Benares; in the Punjab, the Phulkian States, Bahawalpur, the Delhi and the Jallandhar Division States, and the Simla Hill States; in the North-West Frontier Province, the Phulera and the Upper Tanawal States; in Sind, the Khairpur State; in Bombay, the Gujarat States (excluding Baroda), the Konkan States, the Satara Jagirs, and the Southern Maratha States; in the Central Provinces, the Chhattisgarh States; in Madras, the States of Travancore, Cochin, Pudukkottai, Banganapalle, and Sandur. Of these States Agricultural Statistics are prepared for most of the States in the Punjab, and all the States in Madras; but they are dealt with in Volume II along with the States under the control of the Government of India. Thus by deducting 129,951,978 acres belonging to Feudatory and Tributary States from the total area of 748,557,916 acres included in British Provinces, a balance of 618,605,938 acres is left, as shown in table No. 1, which represents the area of British territory according to professional survey. The agricultural statistics are, however, prepared in a number of provinces or parts of provinces from

village papers; and the area given in the village papers of the United Provinces, the Central Provinces, Madras, the Punjab, and the North-West Frontier Province differs to some extent from the area ascertained by professional survey. The actual area, therefore, for which statistics are given in this volume is 616,120,924 acres, or 962,689 square miles.

About two-thirds of this area is available for cultivation as shown in table No. 2; 80,851,369 acres are under forests; and land absolutely barren or unculturable or covered by buildings, water, and roads, or otherwise appropriated to uses other than agriculture, amounts to 149,605,179 acres. The balance 385,664,376 acres represents the area available for cultivation, of which 215,981,682 acres were actually cropped during the year. The remainder is divided between current fallows (54,982,324 acres) and land available for cultivation but not cultivated and not classed as current fallows (114,700,370 acres).

Table No. 3 shows the number of acres cultivated with each kind of crop in each year. In the case of land from which more than one crop is taken, the area actually cultivated with each crop is shown under each crop-heading, but the total number of acres from which more than one crop was taken in the year is also recorded. Thus, in 1911-12, the total area cultivated with different crops was 249,001,750 acres. But 33,020,068 acres were cropped more than once. The net area cropped according to the available statistics is therefore 215,981,682 acres.

The proportion which this area bears to the whole area of India may be seen from the following summary :—

|                                                                                                                         | Acres         |
|-------------------------------------------------------------------------------------------------------------------------|---------------|
| Total area of India . . . . .                                                                                           | 1,131,425,571 |
| <i>Deduct.</i> —Area not dealt with in this Volume—                                                                     |               |

| <i>Deduct.</i> —Area not available for cultivation—                                                                     |               |
| 1. Forests . . . . .                                                                                                    | 80,851,369    |
| 2. Others . . . . .                                                                                                     | 149,605,179   |
| Balance available for cultivation—                                                                                      |               |
| 1. Uncultivated . . . . .                                                                                               | 114,700,370   |
| 2. Fallow . . . . .                                                                                                     | 54,982,324    |
| 3. Actually cropped . . . . .                                                                                           | 215,981,682   |

The population of each district is shown in columns 6 and 11 of Table 5. This Table relates to the Incidence of Land Revenue Assessment; but the population statistics there given may be brought into comparison with those exhibited in other Tables relating to the several classes of land, to the diverse descriptions of crop, and to irrigation, etc.

The notes prefixed to each table explain the changes which have been made since 1866 in the tables now published. The general instructions for compilation are given in the General Notes, and local peculiarities or methods of compilation are mentioned in the Provincial Notes.

Such statistics as have been supplied for the permanently-settled tracts of Bengal, Bihar and Orissa have been included in the tables since 1892-93, but, with the exception of the North Bihar and Orissa districts in Bihar and Orissa and Chittagong, Backerganj and Faridpur in Bengal, which have recently been surveyed, they are not based upon accurate surveys or village papers, and must therefore for the most part be regarded as estimates.

The Native States from which agricultural statistics are received are Mysore, from 1886-87 ; Jaipur, from 1892-93 ; Gwalior, from 1896-97 ; Bikaner, Marwar and Tonk, from 1898-99 ; Alwar, Bharatpur, Kishangarh, Jhalawar and Kotah, from 1900-01 ; Indore, Rajgarh, Narsingarh, Nagod, Patiala, Nabha, Jhind, and Bahawalpur from 1907-08 ; Faridkot, Kalsia, Pataudi, Loharu Dujana, Sirmur, Kapurthala, Malerkotla, Simla Hill States, Bhopal, Barwani, Travancore, Cochin, Sundur, Banganapalle, and Puddukottai from 1908-09 ; Kashmir from 1910-11. The statistics relating to all these States, which in some cases are very imperfect, are separately printed as Volume II.

The year to which the returns relate ends on different dates in different provinces :

|                        |   |   |   |                                                             |

| „ „ 30th September     | . | . | . | in the Punjab.                                              |

The crop statistics, however, in every province refer to the year closing with the harvesting of the *rabi* or spring crop.

A glossary is attached to this note giving the meaning of vernacular words used in the explanatory notes which are prefixed to the tables in this volume.

## Vernacular terms used in the Explanatory Notes.

*Bané* (Coorg).—Forest land granted for the service of the holding of rice-fields to which it is allotted, to be held free of revenue for grazing, leaf manure, firewood, and for timber required for the farm.

*Bhagdari*.—See *Narvadari*.

*Gorait* (United Provinces).—Village watchman.

*Indám* (Madras).—*Whole indám* villages are *entire* villages held on such tenure; *minor indáms* are portions of villages, generally a number of fields held on *indám* tenure.

*Istamrári* (Punjab, Ajmer-Merwara).—A tenure which, though the revenue is assigned, is charged with a permanently fixed quit-rent.

*Izáfat* (Bombay).—A form of service tenure.

*Izára* (Berar).—Land leased under the waste-land rules on stipulated terms.

*Jagír* (Berar).—Alienated villages or lands granted as rewards for service either rent-free or on payment of a quit-rent; such lands are hereditary.

—(Ajmer-Merwara).—Land granted revenue-free on condition of military service or as a charitable endowment.

—(Bombay).—Estates held hereditarily or for one or more generations on political considerations, no condition of service being attached to them.

—(Coorg).—Lands granted rent-free (1) to individuals on account of services rendered to the State by themselves or their ancestors, and (2) to some religious institutions.

*Jamma* (Coorg).—A tenure under which lands are held on half the ordinary assessment on condition that the holders should perform certain services to Government, if required, such as escorting Government treasure and rendering assistance to revenue officers on tour. These lands are inalienable without special sanction.

*Jodi* (Madras).—Portion of the assessment reserved or left unalienated when lands were originally granted on favourable assessment. It is distinguished from quit-rent, which represents an additional charge (generally a certain proportion—one-eighth, one-fourth, one-half, or five-eighths—of the full assessment, *minus* the *jodi*) imposed when the tenures were enfranchised or converted into free-holds.

*Khdlsa* (Bombay).—Government occupancy or raiyatwari tenure.

—(Central Provinces).—Areas settled on malguzari or thekadari tenure, in contradistinction to zamindari.

—(Berar, Ajmer-Merwara).—Land paying full revenue to Government.

*Khatedar* (Berar).—A registered occupant whose name is entered by authority in the Government records as holding unalienated land.

*Khiraj* (Assam).—Land assessed to full revenue.

*Khoti* (Bombay).—A form of tenure, found chiefly in the Konkan, the holder of which is, in return for certain semi-proprietary rights, held responsible for payment of assessment on the area held.

*Kwin* (Burma).—An area averaging about one square mile selected as a survey unit on account of some natural features or administrative boundaries.

*Lakhiraj* (Assam).—Revenue-free land.

*Mahalkari* (Bombay).—A revenue and police officer in charge of a sub-division of a taluk.

*Malguzari* (Central Provinces).—A form of tenure, the holder of which is responsible for the payment of the revenue assessed on a village.

*Malikmakbuza* (Central Provinces).—A person owning one or more plots of land separately assessed to revenue in a village, who is not a malguzar, inferior proprietor, or a member of the proprietary body of that village.

*Mamlatdar* (Bombay).—The chief revenue and police officer (native) in charge of a taluk.

*Mehwasi* (Bombay).—A proprietary tenure assessable to revenue at a lump sum.

*Milankhasra* (Bombay and Central Provinces).—An abstract record in which the village area is classified.

*Mittas, Palayams* (Madras).—Certain classes of permanently-settled estates differing in their origin from zamindaris. Mittas were artificial estates created under Madras Regulation XXV of 1802, while palayams are the estates of poligars or old chieftains. Most of the latter have been granted title-deeds of permanent settlement under the Regulation mentioned, but a few have not been settled, though in practice their revenue is treated as fixed.

*Muafi* (Manpur).—Any kind of land held revenue-free either for a fixed period or in perpetuity, but the term does not ordinarily apply to jagirs.

*Munsarim* (Berar).—A head native revenue officer.

*Narvadari, Bhagdari* (Bombay).—Forms of proprietary tenure involving joint responsibility for the assessment: the revenue in the former case being fixed in the lump, and in the latter distributed by rates over fields.

*Nazul* (United Provinces).—Property escheated or lapsed to the State.

*Nisfkhiraj* (Assam).—Land liable to pay half the revenue which is ordinarily payable for the term of settlement.

*Palampat* (Berar).—Land held on payment of a quit-rent, but not necessarily hereditary.

*Parpatigar* (Coorg).—A revenue officer in charge of a sub-division of a taluk.

*Patel* (Coorg).—Village headman appointed by Government.

*Peshkash* (Madras).—The fixed land revenue payable to Government on all permanently-settled estates.

*Poramboke* (Madras).—Lands reserved for public or village communal purposes.

*Pot indams* (Bombay).—Lands sub-alienated in alienated villages.

*Pot kharab* (Berar).—The unculturable area included in a survey number.

*Shanbog* (Coorg).—A village accountant appointed by Government.

*Shrotriem* (Madras).—Village held on grant (originally to Brahmins), wholly or partially revenue-free.

*Talukdari* (Bombay).—A form of proprietary right in force in the northern districts of Bombay.

*Thatamedia* (Upper Burma).—Household tax.

*Thekadar* (Central Provinces).—A farmer, a leaseholder, a middleman; one who receives the rents from the cultivators and pays a stipulated sum to the proprietor.

*Thuggi* (Burma).—A village headman.

*Udha-jamabandi* (Bombay).—A proprietary tenure subject to fixed assessment.

*Umbli* (Coorg).—Lands granted on reduced rates to individuals on account of services rendered to the State by themselves or their ancestors.

*Zamindar* (Central Provinces).—A chief of minor importance who, while usually holding a large and compact estate on privileged tenure, has been restricted to the rank of an ordinary subject.

|             |             |             |             |             | 13. Of land transferred—                                                           |
| 547,744     | 693,874     | 665,149     | 601,091     | 642,645     | By order of Court                                                                  |
| 4,477,133   | 6,445,616   | 5,419,309   | 4,925,879   | 5,174,211   | By private contract or gift                                                        |

TABLE No. 1—AREA

In this table is entered the total area of each district, the areas for which statistics are and are not available being separately entered.

The corresponding tables of the earlier series are I A—1 of 1866, A of 1884, and A—1 of 1891. The headings differ as set out below :—

|                            | 1866<br>I A—1                                           | 1884<br>A | 1891<br>A—1                                                               |
|----------------------------|---------------------------------------------------------|-----------|---------------------------------------------------------------------------|
| Total area in square miles | Area according to Survey Department in acres.           |           | Area according to professional survey in acres.                           |
|                            | Deduct—                                                 |           | Deduct—                                                                   |
|                            | (a) Feudatory and Tributary States.                     |           | (a) Feudatory and Tributary States.                                       |
|                            | (b) Area for which returns are otherwise not available. |           | (b) Area for which no returns exist.                                      |
|                            | Net area dealt with in this return.                     |           | Net area by professional survey.<br>Corresponding area in village papers. |

## GENERAL NOTES.

*Column 2 (pages 13—15).—*The professional survey is that carried out by the Survey of India in Northern India, and by the corresponding departments in the Southern Presidencies. The provincial areas in this column exclude Native States in direct political relations with the Government of India, but include Feudatory or Tributary States politically controlled by Local Governments, with the exception of the Shan States in Burma.

*Column 3.—*In this column is entered the area of any Feudatory or Tributary States included in column 2.

*Column 4.—*In this column is deducted the entire area (exclusive of Native States) for which the statistics required for tables Nos. 2 and 3 are not forthcoming in whole or in part. This area comprises chiefly estates held in permanent settlement or on privileged tenure, which have not been cadastrally surveyed and which possess at present no agency for the annual collection of agricultural statistics. As surveys extend and the organisation of village statistical establishments develops, or other arrangements are made for the preparation of statistics (see "provincial notes" below), the area in this column is reduced, and that entered in the next columns (5 and 6) and dealt with in tables Nos. 2 and 3 correspondingly increased.

*Columns 5 and 6.—*Column 5 is a check on the accuracy of column 6. In the latter "village papers" means "the papers prepared by the village accountants." They do not in several provinces relate to the whole area included in column 5; for instance, the village returns often do not include the forest areas. In such cases, column 6 must be taken to be the total area for which statistics are available, corrected by the village papers in respect of the areas for which such papers exist. The areas of provinces and districts which are calculated from village papers are necessarily somewhat different from those given by the Survey Department, (a) because, while the survey area of a district or province is calculated in block, the area by village papers represents the added total of field and village areas; and (b) because the system followed as regards the inclusion or exclusion of areas covered by water, buildings, roads, and railroads, is not uniform in the two sets of returns.

In provinces where no village papers exist, the figures in column 5 have been repeated in column 6. In that case they represent the area of which the details are stated in columns 2 to 6 of table No. 2.

## PROVINCIAL NOTES.

*Upper and Lower  
Burma.*

*Column 2 (pages 16—19).—*Where there has been no professional survey of the district estimates framed in the best manner possible are accepted, subject to revision from time to time as surveys extend. Approximate figures for the Chin Hills and for the Kachin Hills (in the Bhamo, Myitkyina and Katha Districts) have been included from 1906-07 and for the Pakokku Hill Tracts from 1907-08. Of the total area (53,804,895 acres) entered in columns 5 and 6 for 1911-12 for Upper Burma, 16,617,113 are based on actual survey and 37,187,782 on estimates; and of the total area (54,994,247 acres) for Lower Burma, 17,498,974 are based on actual survey and 37,495,273 on estimates.

*Assam*

*Columns 4 to 6 (pages 20 and 21).—*Previous to 1906-07 column 4 included all the hill districts, all permanently settled and *lakhiraj* estates, and areas not cadastrally surveyed in Cachar and Sylhet, except—(1) reserved forest areas, and areas under tea; (2) estimated cultivated areas in the permanently settled estates in Sylhet and Goalpara and certain cultivated areas in the Khasi and Jaintia Hills; and (3) the plains portion of the Garo Hills district

In 1906-07 returns based mainly on estimates were, for the first time, prepared for the unsurveyed areas in Cachar, the permanently settled and *lakhiraj* estates in Goalpara, and the hill tracts of the Garo Hills district; in 1907-08 such returns were also prepared for the Naga and the Lushai Hills and for the remaining unsurveyed tracts of Sylhet; and in 1908-09 for the remaining area of the Khasi and Jaintia Hills district. These areas have therefore been excluded from column 4 and included in columns 5 and 6.

The figures shown under Bengal (for all the five years) relate to the 26 districts comprising the Presidency of Bengal as reconstituted on the 1st April 1912.

The area cadastrally surveyed comprises 9,850,849 acres or about 25 per cent of the total area of the province (exclusive of Native States).

*Columns 2 and 3 (pages 22—24).*—Cooch Bihar and Hill Tippera are classed under a separate head as Feudatory States.

*Column 4.*—Prior to 1907-08 the whole area of the Chittagong Hill Tracts district used to be shown in this column; but in that year, the forest area of the district and an estimate of the cultivated area were excluded from this column and included in columns 5 and 6; and from 1908-09 estimates for the whole area of the district have been prepared and shown in the proper columns.

The area cadastrally surveyed is limited to 41,769,177 acres, which is about 78·5 per cent of the area of the province (exclusive of Native States). *Bihar and Orissa.*

*Columns 2 and 3 (pages 25—27).*—The Tributary States in Orissa and Chota Nagpur, are classed under a separate head as Feudatory States.

*Columns 5 and 6 (pages 28—32).*—In 1910-11 the area of the Family Domains of the Maharaja of Benares situated in the Mirzapur district was constituted as the State of Benares. *United Provinces.* This area has therefore been excluded from columns 5 and 6 from that year and included in column 3 with the areas of Feudatory and Tributary States not included in the area of any British District. The portion of the Maharaja's domains situated in the Benares district remains British Territory.

For tracts which possess no agency for collecting statistics, the figures are based on estimates. Of the total area (52,799,610 acres) entered in column 6 for 1911-12 for the Province of Agra, 45,408,610 are based on actual returns and 7,391,000 on estimates.

*Column 2 (page 33)* states the area as given in the settlement records.

*Column 4.*—Up to 1907-08 this column included areas of certain khalsa-muafi, jagir, and *Ajmer-Merwara* istimrar villages for which no returns were available. From 1908-09 details for all these areas have been ascertained, and they have therefore been excluded from this column and included in columns 5 and 6.

*Column 2 (page 14).*—There is no record of area according to professional survey. The *Manpur* area stated is that of the whole pargana including jagir and inám villages as given in the settlement records.

*Column 6 (pages 34—36).*—Figures for areas in river beds not accounted for in the *Punjab* revenue papers and for high mountainous tracts in Simla and Kangra are based more or less on estimates.

*Column 3 (page 33)* represents the area of the Phulera and the Upper Tanawal States in *N.-W. Frontier*. the Hazara district, which was formerly shown in column 4 as area for which no returns exist.

*Column 2 (pages 37—39)* states the area as returned by the provincial revenue survey *Bombay and* and settlement department, supplemented in the case of Native States by the returns of the *Sind*. topographical survey. The revenue survey being incomplete in Sind, the exact area of that province is not known: the column states the area of surveyed tracts *plus* the estimated area of unsurveyed tracts.

*Column 4.*—Up to 1906-07 this column included areas of all unsurveyed villages for which no returns were available. From 1907-08 estimates have been prepared for all these areas, and they have therefore been excluded from this column and included in columns 5 and 6.

*Column 6.*—The figures of column 5 are repeated because the areas in village papers are derived from the revenue survey records.

Of the total area (48,629,353 acres) entered in columns 5 and 6 for 1911-12 for Bombay, 44,442,842 are based on actual returns and 4,186,511 on estimates; and of the total area

(80,257,376 acres) entered for Sind, 30,132,468 are based on actual returns and 124,908 on estimates.

*Central  
Provinces.*

*Columns 5 and 6 (pages 40 and 41).—*For the unsurveyed areas of zamindari\* estates and waste land grants for which accurate statistics are not available, the figures are based on estimates.

The area for which accurate statistics are available is steadily increasing, and until the survey is complete and resettlement finished, there will always be changes which render comparison difficult.

*Berar.*

*Column 2 (page 42)* states the area as ascertained by the local survey and settlement department.

*Madras.*

*Column 2 (pages 43—45)* states the area as ascertained by the provincial survey department supplemented, for tracts which have not come under the operations of that department, by areas obtained with the computing scale from the Survey of India atlas sheets of the localities concerned.

*Column 4.—*Up to 1906-07 this column included chiefly areas of zamindaris or large proprietary estates permanently settled, which have not been cadastrally surveyed and possess no adequate agency for the collection of statistics, except some of the estates under the Court of Wards and private European managers which furnished returns. It also included certain raiyatwari and whole inam villages for which no returns were forthcoming. From 1907-08, however, estimates have been prepared for all these areas, and they have therefore been excluded from this column and included in columns 5 and 6.

*Columns 5 and 6.—*Up to 1906-07 these columns excluded the major portion of the zamindari estates and certain raiyatwari and whole inam villages for which statistics were not available, but from 1907-08 estimates for these estates have been prepared and included. It should, however, be borne in mind that these estimates are not comparable for accuracy with the figures which are collected by adequate agency employed for the purpose. Of the total area (89,072,612 acres) entered in column 6 for 1911-12, 66,467,958 are based on actual returns and 22,604,654 on estimates.

---

\* In the Central Provinces the zamindars are chiefs of minor importance (or their successors) who, while holding large and compact estates on privileged tenure, have been restricted to the rank of ordinary subjects.

## No. 1

AREA (in acres) of each PROVINCE in BRITISH INDIA

| PROVINCE                | Area according to professional survey | DEDUCT                         |                                 | Net area by professional survey | Corresponding area in village papers |

\* See explanation given in the Explanatory Notes (page 12)

(a) Constituted in 1909-10 out of Madura and Tinnevelly

(b) Travancore and Cochin

(c) Excludes a gross area of 3,194,931 acres in North Arcot South Arcot, Salem, and Madura, for which details for succeeding Tables are not available

TABLE No. 2—CLASSIFICATION OF AREA

The first part of this table deals with the classification of the area entered in column 6 of table No. 1, and gives the proportions (columns 2 and 3) withdrawn from cultivation by inclusion under forests or for some other reason, (column 4) cultivable land available but not yet taken up, (column 5) land occupied but not under crop during the year of report, (column 6) the net area under crop, that is, after deduction of the area cropped more than once in the year. The second part (columns 8 to 13) gives the area irrigated from various sources, and (columns 14 to 18) the distribution of the irrigated area under specified crops.

The headings altered since 1866 are noted below :

GENERAL NOTES

Column 2 (pages 50 and 52).— “ Forests ” means “ any land classed or administered as forest under any legal enactment dealing with forests.” Any cultivated areas existing within such forests may be excluded and entered in column 6 (net area cropped), an explanation being given in a note.

The forest areas do not agree in most cases with those stated in the reports on the administration of the Forest Department for various reasons, explained in the “ Provincial Notes ” below, the chief amongst which are these: (1) because the forest administration reports and the statements of agricultural statistics relate in many cases to different periods, (2) because the administration reports relate exclusively to forests worked by the Forest Department, while the tables of agricultural statistics exhibit in addition forest areas administered by district officers, and (3) because, on the other hand, certain village lands worked and returned by the Forest Department are not treated as forests in the returns of agricultural statistics and are therefore excluded from this column.

Column 3 includes all land absolutely barren, and also all land covered by buildings, water, roads, or otherwise appropriated to uses other than agriculture.

Column 4 includes groves not classed in the cropped area. Areas under bamboos and thatching grass, when not forming parts of forest areas, are included in this column.

Columns 8 to 13 (pages 50—53) state the area actually irrigated during the year, areas cropped more than once being counted once only.

Columns 14 to 18 (pages 51 and 53) state the gross area of irrigated crops, areas cropped more than once being counted as separate areas for each crop.

The excess in some cases of the total area of crops irrigated. (column 18) over the total area irrigated (column 13) is thus due to the inclusion in column 18 of the area irrigated at both harvests.

The variations in the areas shown in different years under the same item in the same district do not necessarily represent an actual increase or decrease on the area in question. In many cases a revised classification or the correction of a faulty estimate is responsible for the change.

The following diagram shows what portions of the total area (excluding forests and area not available for cultivation) are represented by net area cropped, by current fallows, and by culturable waste other than fallow :

A.—TOTAL AREA (EXCLUDING “ FORESTS ” AND “ NOT AVAILABLE FOR CULTIVATION ”) SHOWING PROPORTION OF—1, NET AREA CROPPED; 2, CURRENT FALLOWS AND 3, CULTURABLE WASTE OTHER THAN FALLOW IN CYCLES OF FIVE YEARS ENDING 1905-06 AND 1910-11, AND IN SINGLE YEAR 1911-12.

The following diagram shows what portions of the total irrigated area are occupied by food crops and by non-food crops :

B.—TOTAL IRRIGATED AREA CROPPED SHOWING PROPORTION OF—1, FOOD CROPS AND 2, NON-FOOD CROPS IN CYCLES OF FIVE YEARS ENDING 1905-06 AND 1910-11, AND IN SINGLE YEAR 1911-12.

N.B.—Diagram B is on a larger scale than A.

### PROVINCIAL NOTES

For tracts outside the surveyed area the figures are based on estimates framed in the best manner possible. *Upper and Lower Burma*

*Column 2 (pages 54—60).*—The area entered in this column is that given in the forest administration report, and includes reserved forests and fuel reserves. From 1906-07 estimates of the forest areas in certain hill tracts have also been included.

*Column 3.*—In settled tracts the unculturable area is taken from settlement registers, but in unsettled tracts it is obtained from the best source available.

*Column 4* includes land thrown out of cultivation and abandoned. Groves, not classed in the cropped area, and bamboos, when not grown in forest areas, are also included in this column.

*Column 5* includes only such land left uncultivated as is actually in possession of cultivators. In Lower Burma (excluding the Thayetmyo district) such lands are assessed at privileged rates, but in Upper Burma and in Thayetmyo no assessment is levied on land left uncultivated.

*Column 6.*—Of the total net cropped area (4,620,129 acres) entered in this column for 1911-12 for Upper Burma, 4,299,410 are based on actual returns and 320,719 on estimates; and of the 8,719,789 acres entered for Lower Burma, 8,208,375 are based on actual returns and 511,412 on estimates.

*Columns 14 to 18* include only crops actually irrigated; for instance, where an unirrigated crop of sesamum is taken off land which is afterwards irrigated and planted with paddy, the area grown with sesamum is not included in this column.

*Column 2 (page 62).*—The figures represent reserved forests, but from 1909-10 the areas of forest villages within the reserves have been excluded from this column and entered under the appropriate heads of this table. *Assam*

*Columns 3 and 4.*—The figures for unsurveyed tracts in Cachar and for permanently settled tracts in Sylhet are based on estimates. In the Assam Valley unsurveyed waste is divided into culturable and unculturable on the assumption that their proportion in the surveyed area holds good.

*Column 5* includes generally all lands which are thrown out of cultivation or not cultivated, but remain in the occupation of leaseholders. Estimated figures for the Naga and the Lushai Hills have been included from 1907-08.

The figures are obtained from the district crop statement for districts which have been cadastrally surveyed.

*Columns 8 to 18.*—No figures are available of areas irrigated except for Kamrup, Darrang, Sibsagar, and the Lushai Hills. For the latter two districts however the estimates are somewhat incomplete.

*Column 2 (pages 64—68).*—The figures represent Government forests and estimates of other forest areas furnished by district officers. *Bengal*

*Columns 8 to 18 (pages 64—69).*—Areas irrigated from all sources are estimates only, except in the case of certain cadastrally surveyed tracts in Rungpur and Rajshahi and areas irrigated from Government canals.

*Column 2 (pages 70—74).*—The figures represent Government forests and estimates of other forest areas furnished by district officers. *Bihar and Orissa*

*Columns 8 to 18.*—Since 1898-99 the areas and crops irrigated from Government canals are stated; estimates of areas irrigated from all sources have been given for each district from the year 1908-09.

From 1906-07 estimates have been prepared and included for Almora, Garhwal, the hill portion of Naini Tal and of pargana Kera Mangraur in Mirzapur, for which complete figures were not available before. *United Provinces*

From 1910-11 the estimated area of the hill portion of pargana Kera Mangraur in Mirzapur has been omitted owing to its inclusion in the Benares State.

*Column 2 (pages 76—84)* includes forest areas administered by the district officers of some districts. Hence the figures do not agree with those in the forest administration report which exclude these areas. This column also includes the Siwalik Range in the Dehra Dun district.

*Column 5.*—The maximum period for which land left untilled is reckoned as fallow is three years.

*Column 6.*—Of the total net cropped area (26,390,618 acres) entered in this column for 1911-12 for the Province of Agra, 25,786,618 acres are based on actual returns and 604,000 on estimates.

*Columns 8 to 13.*—Government canals include private canals except in Naini Tal, for which district separate figures for private canals have been obtained since 1895-96. From 1903-04, however, the areas irrigated from certain private canals in Budaun and Basti, from 1907-08 such areas in Gorakhpur, and from 1911-12 those in Dehra Dun, which were formerly included under "other sources", have been shown under the proper head "private canals." There are very few private canals in the United Provinces.

Of the total area irrigated in the Province of Agra in 1911-12 (6,323,630 acres), 6,287,730 acres are based on actual returns and 35,900 on estimates.

*Ajmer-Merwara* *Column 2 (page 86).*—The forest area relates to khalsa, jagir, and minor istamrār villages, but excludes village lands managed by the Forest Department which do not technically constitute Government forests.

*Manpur* *Column 2 (page 50).*—The forest area relates to Government forests including those in jagir lands.

*Column 6* includes the area cropped in khalsa (Government) as well as in jagir villages.

*Punjab* *Column 2 (pages 88—94)* includes all lands specially allotted to forest growth under the control of Government or any Local Board or Municipality.

*Column 3.*—This column includes 23,680 acres of river beds in Gurgaon, 15,360 acres of mountain tracts in Simla, 3,896,960 acres of mountain tracts in Kangra, and 24,998 acres of the "Pabbi" forest area in Gujrat. These areas are not accounted for in the village papers, and the figures are based more or less on estimates.

*Column 4* includes large areas of Government waste not allotted for cultivation.

*Column 5.*—The maximum period for which land is reckoned as fallow is two years; but, as a change in classification is not generally made until the year for quadrennial statements comes round, the old classification may be retained from one to three years longer than the prescribed period. In certain districts in the south-west of the province, however, the classification is amended annually. Previous to 1901-02 this column also included the lands on which the crops wholly failed, as well as a fraction of those on which they partially failed proportionate to the degree of the deficiency.

*Column 6.*—Previous to 1901-02 the figures in this column represented the area on which the crops harvested would have been grown in a year of normal productiveness. That is to say, each of the returns of the actual areas from which crops were taken was multiplied by a fraction representing the relation of the crop harvested to a normal crop, and the difference between this product and the actual area was added to the fallow area. From 1901-02, however, the area sown has been reported without reference to the area harvested or the condition of the crops.

*Columns 8 to 18* state the gross area irrigated, that is, land irrigated in both seasons is counted twice. As regards columns 8 to 13, prior to 1906-07, areas which bore two crops under irrigation in a single harvest were also counted twice; but from 1906-07 such areas are only counted once. As regards columns 14 to 18, prior to 1906-07, the figures were those of harvested areas reduced to a standard of normal productiveness (see note to column 6 above); but from that year areas actually sown have been entered.

*N.-W. Frontier* *Column 2 (page 96)* includes all lands specially allotted to forest growth under the control of Government or any Local Board or Municipality, and protected village waste in Hazara administered by the district officer and other waste lands in Peshawar.

*Column 4* includes large areas of Government waste not allotted for cultivation.

*Column 5.*—The maximum period for which land is reckoned as fallow is two years; but, as a change in classification is not generally made until the year for quadrennial statements comes round, the old classification may be retained from one to three years longer than the prescribed period. In Dera Ismail Khan classification is amended according to area of each class of soil actually cultivated each year.

*Columns 8 to 18 (pages 96—97)* state the gross area irrigated, that is, land irrigated in both seasons is counted twice. As regards columns 8 to 13, prior to 1907-08, areas which bore two crops under irrigation in a single season were also counted twice, but from that year such areas are only counted once. As regards columns 14 to 18, prior to 1906-07, the figures shown in them were those of harvested areas, that is, excluding areas on which the crops failed, but from that year areas actually sown have been entered.

*Sind* *Column 2 (page 98).*—The figures do not agree with those in the forest administration report, because the revenue records do not state the most recent alterations of area due to erosion by the Indus which the forest report does, and because, on the other hand, the forest report does not always exhibit the most recent alteration of area effected by the revision survey, which the revenue records do.

*Column 6.*—Of the total net cropped area (2,940,938 acres) entered in this column for 1911-12, 2,940,927 acres are based on actual returns and 11 acres on estimates.

*Bombay* From 1907-08 estimates have been prepared and included for all unsurveyed villages for which no figures were available before.

*Column 2 (pages 100—102)* includes land administered by the Forest Department whether formally declared forest under an Act or not, and differs from the area stated in the forest reports, because in certain localities, where the forest settlement is incomplete, the original areas are still returned by the Forest Department, while revised areas are returned in this table; also because the revenue records do not always state the most recent revisions.

*Column 3* includes all land recorded at the survey and settlement as unculturable, though at times a very small quantity of this land is cultivated.

*Column 5.*—The maximum period for which land thrown out of cultivation is reckoned as fallow is ten years.

*Column 6.*—Of the total net cropped area (22,906,127 acres) entered in this column for 1911-12, 21,527,378 acres are based on actual returns, and 1,378,749 on estimates.

*Columns 8 to 13.*—The figures given for private canals, tanks, wells, and other sources are rough estimates.

*Column 16.*—By "miscellaneous food crops" are understood the crops entered in table No. 3, as sugar, orchards and garden produce, and miscellaneous food crops.

*Column 2 (pages 104—106)* shows the areas administered by the Forest Department; but *Central Provinces* the figures differ from those in the forest administration report because the actual area of the forests is not known owing to incomplete survey, also because excisions made have not yet been taken note of in the forest registers, and because in many cases raiyatwari villages settled, thekadari villages surveyed, clearance lease villages earned in proprietary rights, and village purchased under the waste-land sale rules, have not as yet been finally disforested and struck off the forest registers. In the case of the Chanda, Drug, Raipur, and Bilaspur districts, this column also includes from 1906-07 all areas in the zamindars' estates which fall outside the surveyed villages of those estates. These areas are almost wholly under forest and include only a negligible proportion of sparse and shifting cultivation.

*Column 3* states areas covered with water, hill, or rock, and land occupied by buildings and roads.

*Column 4* states (1) the waste area within holdings (including fallows of more than three years), (2) land under tree forest which is not administered under any Act dealing with forests, (3) land under scrub jungle or grass, and (4) groves not included in holdings.

*Column 5.*—Land which has been fallow for not more than three years is reckoned as current fallow.

*Column 2 (page 108)* includes the forest area administered by the Forest Department, but *Berar* excludes a large area of cultivated land in the Melghat taluk in Amraoti shown as forest in the forest report.

*Column 3* includes village sites, tanks, and land taken up for public purposes or devoted to uses other than agriculture; it also includes unculturable portions of culturable fields.

*Column 4* includes land available for cultivation but not given out.

*Column 5* includes occupied culturable land left fallow for private reasons, such as grazing, rotation, etc.

*Column 2 (pages 110—112)* includes from 1895-96 the area cultivated within forests, and *Madras* excludes the area of forests in the Native State of Sandur, in Bellary, not included in the village papers. As this is included in the forest administration report, it accounts partly for the disagreement of its figures with those in this table.

*Column 4* includes from 1911-12 areas occupied by *babul* and *casuarina* trees when they do not form parts of forest areas. Prior to 1911-12, such areas were classed under "Miscellaneous non-food crops" in table 3.

*Column 5* includes all occupied waste, that is to say, waste portions of land for which revenue is paid.

*Column 6.*—Of the total net cropped area for 1911-12 (33,068,409 acres) stated in this column, 27,107,314 acres are based on actual returns, and 5,961,095 on estimates.

*Column 10.*—The term "tanks" refers to a particular kind of dammed reservoirs.

*Column 13.*—Of the total area irrigated in 1911-12 (9,586,878 acres), 7,868,818 acres are based on actual returns, and 2,218,060 on estimates.

*Column 2 (page 52)* includes reserved and protected forests only. The management of *Coorg* the latter having been transferred to the revenue authorities, the figures shown in the forest administration report represent the area of reserved forests, which slightly differ from those adopted for this table because the periods embraced are different.

*Column 3* includes unculturable Government waste and unculturable *banés*.

*Column 4* states the estimated area of culturable Government waste.

*Column 5* shows (1) the estimated area of culturable *banés*, and (2) the difference between the net area cropped and the gross area of the actual holdings (exclusive of *banés*). It thus includes the unculturable lands within the actual holdings, the area of which cannot be ascertained.

*Columns 8 to 13.*—Figures for land partly irrigated from springs and mountain streams are not available.

CLASSIFICATION OF AREA 50  
(ALL PROVINCES)

No. 2

CLASSIFICATION of the AREA (in acres) of each PROVINCE in BRITISH INDIA

| PROVINCE                              | Forests<br>* | Not available<br>for<br>cultivation<br>* | Culturable<br>waste other<br>than fallow<br>* | Current<br>fallow | Net area<br>cropped | Total      | AREA                 |                   |
|---------------------------------------|--------------|------------------------------------------|-----------------------------------------------|-------------------|---------------------|------------|----------------------|-------------------|
|                                       |              |                                          |                                               |                   |                     |            | Government<br>canals | Private<br>canals |

\* See explanation given in the Explanatory Notes (page 46)

(a) Includes 1,750 acres in Rajshahi for which details are not available

(b) Includes 1,700 acres in Rajshahi for which details are not available

(c) Includes 35,900 acres in Naini-Tal, Almora, and Garhwal for which details are not available

(d) Includes 32,900 acres in Almora and Garhwal for which details are not available

(e) Includes 26,777 acres in Purnea for which details are not available

CLASSIFICATION OF AREA  
(ALL PROVINCES)

52

No. 2—continued

CLASSIFICATION of the AREA (in acres) of each PROVINCE in BRITISH INDIA—continued.

\*See explanation given in the Explanatory Notes (page 49)  
(a) Constituted in 1910-11 out of Cuddapah and North Arcot  
(b) Excludes 636,720 acres for which details are not available  
(c) Excludes the area of certain hill villages (140,073 acres)  
(d) Excludes 674,666 acres, for which details are not available

\* See explanation given in the Explanatory Notes (page 49)

(a) No irrigation works

(b) Statistics of irrigation are not collected

**TABLE No. 3—AREA UNDER CROPS**

This table states the gross cultivated area under each crop, including double-cropped areas and irrigated areas. Column 41 shows the total area cropped more than once. The area is that stated in column 6 of table No. 2.

The headings which have been modified since 1866 are—

| 1866<br>III D—1             | 1884<br>B                               | 1891<br>A—3                                                                                                                                                                                                                                        |

| Opium . . . . .             |                                         |                                                                                                                                                                                                                                                    |

The following items were added in 1891 :—

|                       |                             |
|-----------------------|-----------------------------|
| Condiments and spices | Other drugs and narcotics   |
| Other dyes            | Fodder crops                |
| Indian hemp           | Orchards and garden produce |

Since 1899-1900 “rape and mustard” have been separated from the head “Other oilseeds.”

#### GENERAL NOTES

In 1896 the Government of India decided that in this table should be entered the areas actually sown, whether the crop comes to maturity or not, except in cases when fields, owing to the failure of the first sowings, have been devoted to other crops: in such cases the area first sown should be omitted. Previous to this decision there was no uniformity of practice as explained in the earlier issues.

In cases where two or more crops are grown together, an estimate is made of the area covered by each, and the areas so estimated are separately returned. The estimate is made by the village accountant, or is subsequently determined on formulæ prescribed by the provincial authorities.

*Columns 10, 15, 19, 22, 27, 34, 38, and 39 (pages 120—127).—*The selection of crops for inclusion in these columns was hitherto left to the provincial authorities; but definite instructions have been issued specifying the crops to be included under each head.

*Columns 29 and 30 (pages 124 and 126).—*In certain cases, notably in Madras, the areas stated under “Coffee” and “Tea” differ from those given in the special reports on tea and coffee\* production published separately. The principal reason is that the special reports are prepared from returns received from managers and owners of estates; and these returns, especially in Southern India, are inaccurate and defective. Minor discrepancies in the case of tea are also due to the fact that the figures in this table deal with the agricultural year; while those in the special report deal with the calendar year.

The variations in the areas shown in different years under the same crop in the same district do not in all cases represent an actual increase or decrease in the area under that crop. In certain cases a revised classification or the correction of a faulty estimate is responsible for the change.

The following diagrams analyse the gross cropped area in several ways :—

C—TOTAL AREA CROPPED SHOWING PROPORTION OF—1, FOOD CROPS AND 2, NON-FOOD CROPS IN CYCLES OF FIVE YEARS ENDING 1905-06 AND 1910-11, AND IN SINGLE YEAR 1911-12.

|           |   |   |
|-----------|---|---|
| 1ST CYCLE | 1 | 2 |
| 2ND „     |   |   |
| 1911-12   |   |   |

\* The special report on coffee production has been discontinued with effect from 1910-11

D—TOTAL AREA CROPPED SHOWING PROPORTION OF—1, FOOD-GRAINS; 2, OILSEEDS; 3, FIBRES AND 4, OTHERS IN CYCLES OF FIVE YEARS ENDING 1905-06 AND 1910-11, AND IN SINGLE YEAR 1911-12.

E—TOTAL AREA CROPPED SHOWING PROPORTION OF—1, NON-IRRIGATED AND 2, IRRIGATED AREA CROPPED IN CYCLES OF FIVE YEARS ENDING 1905-06 AND 1910-11, AND IN SINGLE YEAR 1911-12.

F—TOTAL AREA CROPPED SHOWING PROPORTION OF—1, RICE; 2, WHEAT; 3, SUGAR; 4, COTTON; 5, JUTE AND 6, OTHER CROPS IN CYCLES OF FIVE YEARS ENDING 1905-06 AND 1910-11, AND IN SINGLE YEAR 1911-12.

N. B.—Diagram F is on a larger scale than others.

### PROVINCIAL NOTES

The table states the actual area sown, including the area on which crops have been *Upper and Lower* destroyed, but excluding fallow. Land on which more than one crop has been grown is *Burma* entered as a separate crop area.

For tracts outside the surveyed area the figures are based on estimates framed in the best manner possible.

In Cachar accurate statistics of the area under crops other than tea are available only for *Assam* the cadastrally surveyed tracts, in Sylhet only for the Jaintia Parganas and Partabgarh, and in Goalpara only for the temporarily settled tracts. The figures for the permanently settled tracts in Sylhet and Goalpara and for the unsurveyed areas in Cachar are based on estimates. The figures for the five upper districts of the Assam valley represent the whole cropped area in these districts with the exception of a small area cultivated by tribes paying house or poll-tax in Lakhimpur, Sibsagar, and Kamrup. In the Garo Hills district the areas under different crops are available for the plains tracts only. Estimated figures for the Lushai Hills have been included from 1908-09. Detailed statistics of the areas under different crops are not available for the Naga Hills.

Column 37 (page 147).—The area under orchards and garden produce includes village sites.

Statistics are not prepared by village or circle officers. The figures entered in this table *Bengal* are estimates.

No statistics are at present prepared by village or circle officers, except in the Sambalpur *Bihar and* district. The figures for all other districts entered in this table are therefore merely estimates, *Orissa* except those for Sâran, Champâran, Muzaffarpur, Darbhanga, Monghyr, Bhagalpur, Purnea, Puri, Cuttack (exclusive of small permanently settled areas), Balasore, Angul, the Santhal Parganas, and Ranchi, in which the estimates are based on the figures collected during the cadastral survey.

The area sown with unimportant mixed crops, for which no separate heading is provided *United* in the provincial crop statements, is assigned to the principal crop by the village accountant. *Provinces* The areas of important mixed crops, namely, wheat and barley, wheat and gram, barley and gram, jawar and arhar, bajra and arhar, and cotton and arhar, for which separate headings are provided in the crop statements, are distributed in accordance with prescribed formulæ and entered under the crops of which they are composed.

There is no agency for the collection of statistics in Almora, Garhwal, and the hill tracts of Naini Tal and Mirzapur; but from 1906-07 estimates have been framed for Garhwal and the hill tracts of Mirzapur. From 1910-11 estimates for the hill tracts of Mirzapur have been omitted owing to their inclusion in the Benares State.

*Columns 3, 4, 9, and 11 (pages 172—194).*—The whole of the area of the land planted with food-grains (wheat, barley, gram, etc.) mixed with oilseeds is shown under food-grains in this table. The area shown under food-grains which was really planted with oilseeds (as a mixed crop) is roughly estimated to have been 4,419,000 acres in the whole of the United Provinces of Agra and Oudh in 1911-12.

*Columns 12, 13, 14, and 16 (pages 173—195).*—The figures shown in these columns represent areas under "pure" oilseeds, *i.e.*, oilseeds sown unmixed with any other crop. Besides these, the oilseeds are thinly sown in combination with wheat, barley, gram, and other crops. If the areas occupied by the scattered plants were added up, it is estimated very roughly that they would amount in 1911-12 (for the whole of the United Provinces of Agra and Oudh) to 747,000 acres of linseed, 800,000 acres of sesamum, and 2,872,000 acres of rapeseed.

---

*Manpur*

The areas stated are actual areas sown or placed under crop in Government and jagir villages.

---

*Bombay and Sind*

From 1907-08 estimates have been framed and included for all unsurveyed villages for which no figures were available before.

---

*Central Provinces*

*Column 37 (pages 241 and 243)* includes groves situated within the home farm of the landlord or the holding of a plot proprietor or tenant.

---

*Madras*

*Column 36 (pages 255—257)* states the areas sown with grass and crops solely for fodder. Lands left waste for grazing and on which grass grows spontaneously are not included in this column.
